But it all comes with it's price!

Average costs of these product will be one to two Euro per day and in some cases even three or four. So just calculate and you will realize that "living healthy" can easily cost you 15-20 Euros par day!

So what would you say if you could get it all and more for the price of one?

Replacing all these products with the single one is what our Dame Mirage Capsules are doing.

For relatively healthy person the recommended consumption is two capsules per day and up to 6 per day if you are using heavy medicines or consume acid substances (food).

By taking 2 capsules per day our product will activate your body functions, detox/cleanse your body and start cells regeneration.

Our product is (Ascophyllum Nodosum) wrack seaweed concentrate with open cell structure and therefore is not comparable to any other product in the market.

Wrack seaweed is commonly used in food supplements with recognized effects. Our product unique attribute is open cells structure which multiplies effects of wrack seaweed used in competitive products.

There are many studies made on probiotics, prebiotics and wrack seaweed and you can find them on the internet:

Dame Mirage Capsules IS NOT A “MAGIC PILL” as our competitors claim for their products. It will improve your health gradually, bit by bit – day by day in three phases:

- Activation of your body functions;
- Detox/cleanse
- Regeneration

Over the time you will be balancing between phase 2 and 3 with consuming 2 capsules per day for average healthy adult.

We advise to take blood picture before start using our product. After 60 days take the blood picture again and compare the results with your physician.

Look on oxygen content in the blood, but also observe functioning of your liver, kidneys, look also on vitamin D levels, if you did have problems with that.

If you do heavy sporting take one pill every hour, but no more than 6 per day and you will have no muscle pain. When drinking alcohol, do the same and you will have no hangover!

However, it will be hypocritical to take pills for health and not think about your regular diet.
